Galata Tower
Galata Tower, located in the Galata district of Istanbul, Turkey, is a historic landmark rising approximately 67 meters. Built in 1348 by the Genoese during their colonial period, the tower features Romanesque architecture. Throughout its history, it has served various purposes, including as a lookout point, a prison, and an observatory. Today, it is a popular tourist attraction offering panoramic views of Istanbul from its observation deck. The tower is also home to a museum, a restaurant, and a cafe. As a symbol of Istanbul, Galata Tower is associated with the legend of Hızırfez Ahmed Çelebi, who is said to have flown from the tower to the Asian side of the city in the 17th century.

Incredible building
Visiting the Galata Tower was incredible. It is a gorgeous building. When I come to Istanbul again I would like to visit.

Guzelchisar Beach
Guzelchisar Beach, located along the Black Sea coast in Turkey's Bartın Province, is a hidden gem known for its stunning natural beauty and unique geological formations. This pristine beach is formed by its striking basalt columns, which were formed by ancient volcanic activity and stand as a testament to the Earth's dynamic geological history. Stretching along a peaceful shoreline, Guzelchisar Beach offers golden sands, crystal-clear waters, and a serene environment perfect for relaxation and exploration. The backdrop of lush green hills and the tranquil atmosphere make it an ideal destination for nature lovers and those seeking a peaceful retreat. In addition to its scenic allure, the beach is a growing spot for eco-tourism and outdoor activities, such as hiking and photography, providing a perfect blend of adventure and serenity.

A screenshot of a registration form titled "Make Your Account!". The form fields are: "Your Name" (Bohor), "Your Email" (bohar.arslann@std.yeditepe.edu.tr), "Your Password" (four dots), "Confirm Password" (four dots), and "Profile Pic" (with a "Choose File" button and the file path "WhatsApp Image 2024-05-26 at 16.50.00.jpeg"). Below the form is a link "Already have an account? Login now!" and a "Register Now" button. At the top of the page is the "TraveltoTurkey" logo.A screenshot of a confirmation page titled "Make Your Account!". It displays the message "Registered successfully!" with a green checkmark icon. There are "OK" and "Register Now" buttons. The background of this page is grey, while the rest of the interface is white.

```

The screenshot shows a code editor window with the file 'login.php'. The code is a PHP script that performs a login check. It includes database connection setup, user input filtering, and password verification using the `password_verify` function. It also handles session management for user authentication. Two error messages are displayed: one for incorrect password and one for incorrect email.
